

PROJECT SELECTION FORM

1. Names of the Project Team Members

Project Group No - **681**

Sr. No	Name	Roll No.	Signature
1	Pranav Madanrao Deulkar	262137	<i>Deulkar</i>
2	Sumcet Rajesh Rokode	262192	<i>Sumcet</i>

2. Title of the Project

SprintFlow: Agile Task and Bug Tracking Solution

3. Brief Description of the Project (Add Annexure if needed)

SprintFlow is a web-based project management system designed for small software teams to manage projects, assign tasks, report bugs, track progress, update status and collaborate through comments. This helps developers reduce dependency on spreadsheets, email, and unorganized chat platforms by providing a centralized workflow.

4. Software Requirements for the Project (Tentative)

• Java	• MySQL	• STS IDE
• Spring Boot	• Material UI	• VS CODE
• React.js	• REST API	• JAK
• HTML	• Mailtrap	• npm
• CSS	• Brevo Mail	• node.js
• Bootstrap	• Postman	

5. Hardware Requirements for the Project (Tentative)

Processor: Intel i3 / Ryzen 3	or above.
RAM : 8 GB	or above
Storage : 10 GB	or above
OS : Windows	
Connectivity : Internet	(for dependency downloads)
